I am a junior CG Generalist, currently studying MSc Computer Science at University College Dublin, based in Ireland. My undergraduate degree is in Visual Effects from the Savannah College of Art and Design in Savannah, GA, USA. I am excited to be a part of visual effects industry with creativity combine with my skill in programming, 3D software such as Houdini, Maya, Substance Painter and Unreal Engine. Inspired my film and tv shows, I am passionate to be apart of storytelling and bring the impossible visual to screen.
