I am a postgraduate student pursuing an MSc in Computer Science at University College Dublin, with an undergraduate background in Visual Effects from the Savannah College of Art and Design. My interest combines creative and technical disciplines, ranging from UI/UX design, front-end development to 3D graphics and CG for film/tv. Skilled in both programming and design tools, I enjoy solving problems, designing, and eager to contribute to creative industry. With international academic and professional experience, I bring adaptability, creativity, and a strong work ethic to multidisciplinary teams.

Experience

UI Designer & Front End Developer,
University College Dublin (Summer Thesis Project)
